

HIS Hawaii Publishes Activity Book “My Little Adventure” — Co-created with Visual Design Students at Kapolei High School —

Hawaii HIS Corporation (dba HIS Hawaii) published our first activity book “My Little Adventure”, co-created with Visual Design students at Kapolei High School.

“My Little Adventure” – Activity book co-created with Visual Design students at Kapolei High School

“My Little Adventure” is a 32-page activity book for children over 7 years old. Children can enjoy and learn about creatures that live in the beautiful ocean of Hawaii, drawn by Visual Design students at Kapolei High School. Through activities such as coloring, find the difference, hidden pictures, word puzzles, etc., they can familiarize themselves with Hawaii’s nature, culture, and even a little bit of Hawaiian language.

This initiative was led by our co-writers and illustrators, Younghee Cho and Tiffany Walker, in an effort of reaching out to the local community in Hawaii under the long-standing pandemic. As well as to make something fun for people, especially children, to look forward to. In search of young artists, who they could collaborate with to draw Hawaii’s beautiful underwater sceneries, they reached out to several local art programs for students of all ages. At last, they gained tremendous support from the Visual Design teacher and her students at Kapolei High School, which is also Tiffany’s alma mater.

Ms. Milanie Dumapit, the Visual Design teacher at Kapolei High School, congratulated and commented on this release as the following; "My design students have taken this course in Visual Design at Kapolei High School as their pathway for two years in our Arts and Communication Academy. This opportunity was a wonderful invite to share with the community of the talents and skill they learned or independently explored on their own. Not only did they work tirelessly, but they made an effort to increase awareness of the types of fish and other animals we have in our beautiful water for all to see or explore while snorkeling. Enjoy and we hope to continue this effort in the future to create a visual for our visitors to learn from."
