

LeaLea Trolley Launches Two New Routes on November 1

– Expanding to Hawaii’s Largest Network of 11 Lines and 58 Stops, alongside the Debut of LeaLea Discovery Pass and LeaLea Ocean Cruise to Explore Hawaii’s Culture and Nature –

Honolulu, Hawaii, September 30, 2026 – Hawaii HIS Corporation (“HIS Hawaii”) will launch two new routes for its LeaLea Trolley sightseeing transportation service on Oahu, Hawaii, effective November 1, 2026.

In recent travel trends, there has been a growing demand for stay-based and experiential travel, with visitors seeking to deeply learn about Hawaii's history and culture, as well as connect with local daily life and nature. With the introduction of these new routes, HIS Hawaii becomes the very first island-wide circulator bus service in Hawaii to provide direct access to the lush Manoa area and the University of Hawaii, while also ensuring seamless transportation to highly popular farmers' markets. This expansion brings the network to a total of 11 lines and 58 stops, making it the largest trolley network in the State of Hawaii*, and drastically enhancing both convenience and experiential value for visitors during their stay. *As of October 2026, based on internal research among island-wide circulator buses in the State of Hawaii.

To celebrate the expansion, a new benefit program offers exclusive perks at participating local restaurants and retailers upon presenting a LeaLea Trolley pass, boosting the local economy by driving traffic to areas where tourist access was previously limited.

On the same day, new eco-friendly initiatives will begin with the introduction of Electric Buses (E-Buses), alongside the launch of two new services: the LeaLea Discovery Pass, an island-wide pass to fully experience Hawaii's culture and nature, and the LeaLea Ocean Cruise, which offers scenic views of Waikiki from the ocean.
